What our customers say?

□ Within 2 months after our site went live, we have booked \$36,000 of new business during the lowest season of the year. Prior to Milestone, our website sat idle and only being looked at for menus, pictures, and layouts when guests were prompted by our in-house staff to view these pages. Milestone generated traffic to our site via Google, Yahoo, etc., all without pay per clicks - in other words organically. We now have a powerful, new online marketing vehicle □
